1. Description of the Platform

The pre-registration app's main goal is to maximize user sign-ups and incentivize users to refer friends. When users create an account via social login with Apple or Google, they will be able to verify their address, follow us on X (Twitter), and share their referral link. By sharing their referral link and having new users create an account, both the referrer and referee will earn Power. Accumulating more Power allows users to free access greater to Airdrop opportunities.

2. Registration & Account Management

To use the Platform, you must:

- Sign up using Google or Apple authentication.
- Accept the Privacy Policy and Terms of Use during account creation.
- Provide basic information, including email, name, and avatar (from Google, if applicable).
- Be of legal age.

You may log out or delete your account at any time.

3. Power System & Rewards

Users can earn Power based on various activities:

- Account Creation: 50 power
- Ethereum Wallet Connection: 100 power

- Following Official Account: 200 power
- Posting and Mentioning Project: 50 power
- Daily Login: 25 power

- Referral (referee): 100 power

Power progression unlocks different reward levels, including future airdrops. Users will see their level, progress bar, and upcoming rewards on their dashboard.

4. Verification System

Users will undergo verification processes, including:
